GỬI NGÀN BÌNH AN

30 ĐỢT

"CHĂM SÓC SỨC KHOẺ & TRI ÂN TẶNG GẠO TẾT 2025"

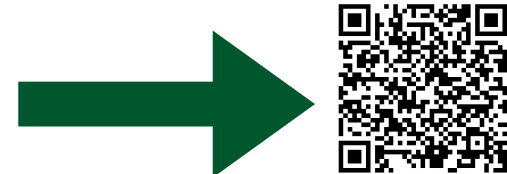

The program is organized by An Khang Pharmacy in collaboration with sponsors, organizations, individuals, and local authorities. This program **consists of 30 sessions, each session offers free health consultations, care, and gifts to 150 underprivileged individuals**, fulfilling the mission of **"Caring for the health of the Vietnamese people"**. Program details will be continuously updated at nathuocankhang.com.

Continuing to fulfill our ESG Sustainable Development commitments in addressing environmental issues, **BHX introduces Green Bag to help reduce plastic waste** and raise community awareness about the harmful effects of single-use plastics and non-biodegradable packaging. This marks a significant step toward **fostering reuse habits** and advancing a circular economy in Vietnam.

List of Implementation locations

The Green Bag features an optimized design with **two separate compartments and an additional small outer pocket**, making it convenient and hygienic for customers to sort fresh and FMCGs while maximizing storage capacity.

MWG - TOP 50 BEST-PERFORMING COMPANIES IN 2024

The awards were announced on the afternoon of December 11 at the 2024 Corporate Governance Conference. This prestigious and valuable ranking has been organized annually for the past 13 years by **Nhip Cau Dau Tu Investment Magazine**, with consultation from leading economic and business experts from Harvard Business School. It references reputable global rankings to **identify and honor companies with outstanding business performance on the Vietnamese stock market.**

MWG - TOP 100 CORPORATE SUSTAINABILITY INDEX (CSI) 2024

The Corporate Sustainability Index (CSI) program in Vietnam is organized by VCCI, the CPV Central Committee's Economic Commission, the Ministry of Labour - Invalids and Social Affairs, the Ministry of Natural Resources and Environment, the Vietnam General Confederation of Labor, and Deloitte Vietnam.

This solution offers customers an increasingly complete and convenient financial experience.

Did you know?

THE SITUATION OF PLASTIC WASTE POLLUTION

Each year, humans produce a **volume of plastic waste sufficient to wrap around the Earth four times**, with **13 million tons of plastic waste** being directly released into the oceans.

At the current rate of plastic waste production, UNEP estimates that the world **consumes 1,000 plastic bags every minute**. Alarming, only **27%** of these are properly collected, processed, and recycled.
