Môi trường Xã hội Quản trị

On June 2, 2025, the signing ceremony for the “Joining Hands to Green Vietnam’s Forests” project was held, marking the launch of a passionate green initiative with the goal of planting 3,000 trees over three years. The project aims **to restore forests, protect the environment, and promote a sustainable lifestyle within the community.** This initiative comes at a time when Vietnam's **natural forest area is declining at an alarming rate**, leading to severe consequences such as **climate change, water scarcity, soil erosion, and loss of biodiversity.**

The first milestone of the project took place on **June 5, 2025, at Nui Ong Nature Reserve** in Binh Thuan Province, coinciding with **World Environment Day**. Nearly 40 representatives from the two companies, along with forest rangers, directly planted **1,000 trees** — each one symbolizing a commitment to responsibility and a deep connection with nature.

INITIATIVE:
"SUMMER HEAT RELIEF"

PILOTING EV CHARGING STATIONS AT ĐIỆN MÁY XANH

In support of green transition initiatives and the promotion of sustainable development, MWG has officially launched a pilot program for **electric vehicle (EV) charging stations at Điện Máy Xanh stores**. This pioneering move integrates eco-friendly utilities into the retail ecosystem, helping consumers shift toward **environmentally friendly transportation solutions**.

IN CELEBRATION OF WORLD ENVIRONMENT DAY – JUNE 5 #BEATPLASTICPOLLUTION

World Environment Day 2025, led by the United Nations Environment Programme (UNEP), carries the theme "**Beat Plastic Pollution**". Each of us can help protect our planet through small everyday actions:

- **Turn off lights and taps** when not in use.
- Avoid **single-use plastics**.
- Choose **public transportation**.
- Prioritize **recyclable products**.
- Take part in **environmental protection activities**.
