“Protecting the environment is simply not throwing garbage on the street, especially dangerous waste like plastic bags. Reusable bags are an effective solution to help you do that easily”

Mr. Ho Viet Dong
Purchasing Manager
OEM - BHX

Bring a reusable/canvas bag when going shopping

Why?

When going to the market or shopping, many people often store their products in plastic bags. You may not know, plastic takes 10 to 100 years to decompose. They are not biodegradable but will crumble into many small pieces floating in the ocean, and can only be decomposed by sunlight over the centuries. Therefore, to reduce the amount of plastic discharged into the environment, we need to limit their use in daily life.

How?

Carry a cloth bag, reusable bag, collapsible type, in the trunk of your car/bike or handbag for convenient shopping.
