

PALMA partners with MWG to deploy the solar power system

Since January 2023, with the goal of applying renewable energy, MWG has cooperated with PALMA Group - a company specializing in solar energy, to install solar battery systems at offices and supermarkets. With this action, MWG is realizing its commitment to Sustainability.

“ Efforts to reduce greenhouse gas emissions, minimize adverse impacts to contribute to environmental protection and respond to climate change, through continuous improvements in business operations. ”

ESG ACTIVITIES

MWG launched the Environmental Protection campaign

Tam An - Than Khang Journey in Can Tho

Environmental Protection Contest - Heal the Earth

Pilot implementation of plastic bags inventory management at TGDD, DMX, and TopZone

STAT OF THE MONTH

150.000

Trees planted

6.000

Tons of CO2 reduced

150

HA of forrest planted

is the equivalent benefit on environment after deploying solar power system at MWG offices for 30 years.

Tip of the month

ENVIRONMENT PROTECTION

3R SOLUTION

REDUCE

Reduce waste through changing lifestyle and consumption habits.

REUSE

Reuse of a product or part of a product for the same purpose or for another purpose.

RECYCLE

Sorting waste and using it as raw materials to produce new products.
