Speaking about the project, Mr. Pham Van Trong - General Director of Bach Hoa Xanh Trading Joint Stock Company said:

**“The environment is important to our lives and future generations. As a leading retailer, we pioneer activities aimed at sustainable development and circular economy and consider this as our goal and responsibility along with business development and positive contributions great for the community”.**

MWG and CAS Energy have signed a memorandum of understanding (MoU) to cooperate in implementing green energy and circular economy projects.

The content of the cooperation includes the installation of solar power systems combined with the treatment and circulation of organic waste, CAS Energy will collect organic waste at Bach hoa XANH and process it into organic nutrients for agriculture.

This is also proof of MWG's seriousness and strong commitment to promoting green growth and contributing to the Net-Zero goal (cutting greenhouse gas emissions to near zero) by 2050 of Vietnam.
