Earth Day 22/4/2023

"In the day when humanity temporarily puts aside daily tasks, worries and sorrows to reflect and act for the natural world that we are living in."

Gaylord Nelson - the father of International Earth Day.

Do you know 

Earth Day is a day when people all over the world are encouraged to raise awareness and take action in environmental movements. It was launched by the United Nations and is held on April 22nd every year to prevent disasters caused by climate change and the destruction of the environment.
